Battle Cruiser Squadron Es- capes After Bombarding Lowe- stoft—Hit 3 British Ships

FRENCH REPULSE ATTACK

BULLETIN.

LONDON, April 26.—Hostile airships, raided the counties of Essex and Kent Tuesday night, according to an official statement.

"The number of raiders is unknown," the communication adds, "but they did not exceed four. The raiders were met by a brisk anti-aircraft gun fire and retreated after achieving little or nothing."

A revolutionary outbreak in Ireland in which British troops and volunteers sustained relatively heavy casualties, and a raid by a German battle cruiser squadron on the east coast of England, in which the raiders escaped after bombarding Lowestoft and hit two British cruisers and a destroyer, are the outstanding features of the war.

Kill Eleven Dublin Defenders. So far as has been made public the revolution in Ireland has not extended beyond Dublin where members of the Sinn Fein society on Monday captured the post office and other points in Dublin and in fighting which ensued with the troops and loyalists killed at least eleven of the city's defenders and wounded nearly a score of others. What the losses of the revolutionists were has not been stated. The British government asserts that the situation in Dublin now is well in hand.

The German battle cruiser squadron made its attack on Lowestoft, opening fire on the coast and killing two men, one woman and a child. British light cruisers, torpedo boat destroyers and aircraft chased the Germans, who put back hastily toward Germany. Two British cruisers and a destroyer were hit by German shells but none was sunk. Whether the Germans suffered any damage is not known.

Except in Lorraine there has been an entire absence of infantry fighting on the western front. The big guns however, have continued their rain of shells on opposing positions at various points. At La Chapelle in Lorraine, the Germans launched a heavy infantry attack against the French which was repulsed. Some of the Germans obtained a footing in a portion of the French salient, but later were driven out with heavy losses.

Continue Intense Bombardment. Around Hill 304 and in the region of Ennes and Cumieres, northwest of Verdun the bombardment continues intense. To the east of Verdun, around Moulinville, there also has been a violent bombardment. In the Argonne the French have destroyed with their guns a German post and shattered a German trench over a small front. Considerable aerial activity by the French in which four German machines were brought down is reported by Paris.

On the eastern front near Garbunaka, the Russians made a heavy attack against the Germans out were repulsed, according to Berlin.

Heavy artillery engagements are still in progress in the upper Coudde and Monte San Michele zones of the Austro-Italian front.

The British official communication from Mesopotamia says the British are still holding their lines on the right bank of the Tigris against the Turks and have somewhat extended them at one point by driving in the Turkish pickets.

Serious Disturbance Breaks Out. London, April 25.—The official communication this evening concerning the situation in Dublin says: "At noon yesterday serious disturbances broke out in Dublin. A large party of men, identified with the Sinn Fein party, mostly armed, occupied Stephen's Green and took possession forcibly of the postoffice where they cut the telegraphic and telephonic wires. Houses also were occupied in Stephen's Green, Sackville street, Abbot street and along the quays."

"In the course of the day soldiers arrived from the Curragh and the situation now is well in hand. So far as is known, three military of-

UNPLEDGED DELEGATES LEAD IN MASSACHUSETTS

EARLY RETURNS INDICATE ELECTION OF McCALL GROUP

Leave Little Doubt That Ticket Whose Members Had Declared For Roosevelt Is Defeated—Chief Interest in Republican Fight.

Boston, Mass., April 25.—Massachusetts will be represented in the Republican national convention by an unpledged delegation, if the outcome of today's primaries may be judged from slightly more than half of the total vote tabulated at 11 o'clock tonight. The returns left little doubt that the unpledged group of candidates for delegates at large, headed by Governor McCall, has defeated the ticket whose members had declared themselves for the candidacy of former President Roosevelt. At 11 P. M., only three districts, the tenth, eleventh and twelfth, comprising the city of Boston had reported complete returns for district delegates. In each of these districts unpledged delegates were elected over Roosevelt men. There were similar contests in the thirteen other districts.

There were contests in eleven districts among the democrats but these were personal and all the candidates were understood to favor the re-nomination of President Wilson.

Chief interest in the primary was in the Republican fight between the two groups of uncommitted and Roosevelt candidates. The unpledged led by Governor McCall carried Boston by approximately 3,000 votes. At 11 o'clock, 614 precincts out of a total of 1,140 including Boston, stood:

Unpledged	Roosevelt
Governor Samuel W. McCall, 20,578.	Senator Henry Cabot Lodge, 23,894.
Former Governor Murray W. Crane, 25,619.	Senator John W. Weeks, 28,566.
Announced for Roosevelt	Charles Sumner Bird, 21,456.
Grafton D. Cushing, 21,404.	Congressman Augustus P. Gardner, 21,243.

U. S. STEEL SURPASSES ALL PREVIOUS RECORD FOR EARNINGS

Detailed Statement for First Quarter of Present Year Shows Net Income of \$51,218,559.

New York, April 25.—All previous records for earnings by the United States Steel corporation were surpassed in the first quarter of the present year, according to the detailed statement for that period, issued after the close of business today. Total earnings amounted to \$60,713,624, net income to \$51,218,559 and surplus for the quarter to \$32,854,172. These figures compare with the previous high record made in the quarter immediately preceding of \$51,232,788 in earnings, \$40,853,113 in net income, and \$23,300,692 in surplus.

The most remarkable feature of the statement was the steady rise in monthly earnings with the progress of the quarterly period. For January earnings amounted to \$18,794,912, swelling to \$19,196,396 for the shorter month of February and mounting to \$22,722,316 in March. Earnings in March were almost twice as much as preferred and common dividend requirements for the entire quarter.

The balance of the quarter, after liberal allowances for depreciation, payments applicable to the sinking fund and other outstanding bond amounted to \$45,512,872, whereas a year ago there remained a balance of only \$915,053.

Contrary to expectations in many quarters, the directors not only failed to order an extra disbursement on the common stock, but, according to Chairman E. H. Gary, the subject was not even formally discussed. Taking the first quarter's exhibit as a basis, the current month is expected to show earnings of \$25,000,000 with a total of not less than \$70,000,000 for the second quarter.

The United States Steel corporation it is understood is almost fully booked for the balance of 1916, and has taken many large contracts for delivery in the coming year. Prices for the business of the first and succeeding quarters of the year are at highest averages of recent years and in some instances establish new records.

SPRINGFIELD, Ill., April 25.—The mangled body of Major John S. Hurt, an officer of the First cavalry, I. N. G., during the Spanish-American war, was found early today on the right of way of the Illinois Central railroad near his home at Barclay, about ten miles northeast of here.

Major Hurt accompanied his sister, who had been visiting him, to her home late last night and it is believed he was struck by a late train on his return trip.

GEN. OBREGON MAY REACH LINE TODAY

Gen. Funston Will Attend Gen. Scott at the Conference

AMPLY PROVISIONED

It Is Believed Obregon Will Be Given Impression Troops Are Prepared for a Long Stay

MUST RATIFY CONCLUSIONS

WASHINGTON, April 25.—General Alvaro Obregon, minister of war of the Mexican de facto government, is expected to arrive at the border for a conference with Major General Hugh L. Scott, chief of staff of the American army by Thursday night at the latest.

Embassy officials thought it possible he might reach the border tonight. Advice from General Carranza indicated that Obregon started north to the state department, however, indicated that it was early Monday morning before his train pulled out. On this statement officials estimated that he might arrive in Juarez tomorrow night, but probably not until the following day.

Funston to Accompany Scott. General Scott will be attended at the conference by Major General Funston. It is understood General Obregon will bring with him several Carranza generals personally familiar with the situation in northern Mexico.

The were no developments here today either in the military or diplomatic aspects of the Mexican situation. Advice to both the state and war departments were meager. General Funston forwarded delayed messages telling of the killing of a trooper of the Tenth cavalry by a sniper nearly two weeks ago, but giving no details. He also sent routine messages as to supplies; but no report on the re-disposition of his forces in Mexico, now well in progress.

The state department had reports of continued quiet in various parts of Mexico and also messages indicating that the presence of the American troops beyond the border might be influencing the price of Carranza currency adversely. Officials thought it possible this was one of the reasons that impelled Carranza to urge withdrawal of the American forces.

It was pointed out that while the soldiers remained in Mexico it was improbable that any loan could be negotiated by the de facto government and that their presence also cast enough doubt on the immediate future there to depress exchange rates. Last quotations fixed the price of Carranza money at one and one-half cents on the dollar.

Forces Ample Provisioned. It was announced officially today that the forces in Mexico and on the border now were amply provisioned with stocks on hand large enough to carry them up to May 15 at least. In addition the lines of supply leading to the big market centers from the border are so well established that any emergency can be met promptly by the quartermaster's department. It is understood also that arrangements have been completed to supply the cavalry commands beyond the border with additional mounts during the period of recuperation which is to follow the re-disposition. Officers here said the cavalry mounts undoubtedly were badly worn by the long chase southward.

It is believed here that General Obregon will be given the impression that the American troops are prepared to make a long stay, on their new lines as an outpost guard for the border. He will probably carry back to Mexico City the conviction that they are to remain in Mexico until the danger of border raids is definitely removed either by joint action in policing the doubtful areas or by the demonstrated ability of Carranza troops to take care of the situation. Whether the capture or death of Villa himself will be fixed as one of the elements in such a demonstration is not known.

Whatever conclusion the conference brings to the two officers it will have to be ratified by both governments to become effective. If they shape any definite plan to recommend after their talk, it will be submitted promptly both to Washington and Mexico City for consideration. So far as is now known neither is empowered to enter into an agreement of any kind involving the actions of their respective governments.

MAKE AMERICAN TELEPHONE & TELEGRAPH CO., PARTY TO HEARING

Chairman O'Connell Requests That Some Officer of Company Appear Before the Utilities Commission Today.

Chicago, April 25.—Demands of attorneys representing independent companies of Illinois and adjoining states that the American Telephone & Telegraph company be made party to the hearing now on before the utilities commission in which the Chicago Tunnel company is seeking ratification of the sale of the Automatic Telephone company to the Chicago Telephone company was granted shortly before today's session adjourned. The purchase of the automatic company alleged by the independents to be their only entrance to Chicago, recently was authorized by the city council. The purchase was made by the Chicago Telephone company but it was stated at the hearing that the latter acted merely as agent of its parent company, the American Telephone & Telegraph company, of New York.

William L. O'Connell, chairman of the commission, requested William P. Sidley, attorney for the Chicago Telephone company, to try to get some officer of the American Telephone & Telegraph company to appear before the commission voluntarily tomorrow. The point to be decided is whether the purchase really was made by the Chicago Telephone company in which case the transaction would require the sanction of the commission or whether the real purchaser was the parent company, a New York corporation.

Ralph Shaw, attorney for the Automatic company opposed the bringing in of the American Telephone & Telegraph company.

DEMOCRATS DEFEAT MANN'S EFFORTS

House Finally Sends Army Bill to Conference Unamended

CONFEREES MEET TODAY

Special Rule Adopted After Brief Debate Paves Way for Action in House

TERMS IT DEMOCRATIC TRICK

WASHINGTON, April 25.—Democratic leaders in the house today finally defeated the efforts of Minority Leader Mann to prevent the army bill from going to conference unamended and the conferees of both houses, appointed later, will meet tomorrow to work out a final draft of the first great preparedness measure. A special rule adopted after brief debate paved the way for action in the house. The rule permitted one motion to recommit the bill, but most of the Republicans representing Speaker Clark's recognition of Representative London, Socialist to make the motion, declined to vote on the proposition and it was defeated 248 to 1.

Name All Big Army Men

When the senate conferees were announced there was much comment on the fact that "all big army men" had been named. Senator Hitchcock, second majority member of the military committee and opposed to a large standing army, was not on the list. The conferees are Senators Chamberlain, Beckham, Broussard, DuPont and Warren and Representatives Hay of Virginia, Dent of Alabama and Kahn of California.

For almost a week Representative Mann had led a fight in the house against sending the measure to conference. He insisted upon having it recommitment to the military committee with instructions to strike out the provision for a nitrate plant and to insert the provision of the senate bill for a 250,000 standing army and a federal volunteer force. During the discussion on the rule today, Mr. Mann contended that a regular army of at least 250,000 would be needed for a first line of defense if the country were drawn into war.

Attack Nitrate Plant Proposal. The nitrate plant proposal was attacked by Representatives Lenroot of Wisconsin and Longworth of Ohio, who declared it was placed in the bill "at the behest of the water power lobby."

Representative Hay replied that the conferees never would agree to this provision until ordered to do so by the house.

When an overwhelming majority had sustained the rule, Representative Kahn moved to recommit and strike out all of the senate amendments except that relating to increasing the army to 250,000. Simultaneously Representative London of New York, opposing all military and naval increases offered an unqualified motion to recommit. A long preliminary wrangle over who should be recognized followed and the Republicans, guessing that Representative London would be the favored one because he had voted against the original house bill while Representative Kahn had not threw Representative Britton of Illinois a Republican who stood alone with London against the original bill, into the breach with a motion to recommit. The right to make such a motion, Republican leaders contended belonged by tradition to the minority.

Republicans Shout Objections. "The gentleman from New York is a minority in himself and he should be recognized followed and the Republicans stood up and shouted objections. Mr. Mann declared it was a Democratic trick and motioned the Republicans to remain in their seats when the vote on the motion was taken.

Aside from the difference in authorized strength of the regular army, the house and senate bills are dissimilar in other important respects. Of great interest is the senate federal volunteer army plan authorizing a force with an ultimate strength of 250,000 men and which has been opposed vigorously by friends of the national guard in both houses.

It was retained in the bill by so narrow a margin in the senate that its friends admit its value will be chiefly for trading purposes in conference. Another difference is in the size of the federalized national guard proposed and the method of federalization. The house bill contemplates 425,000 national guard strength within five years and also provides that members of the national guard shall be subject to draft into the federal service in time of war to

BEGIN ARGUMENT ON FORECLOSURE PETITION

IMPORTANT ACTION INVOLVES FATE OF ROCK ISLAND RAILROAD

Foreclosure Is Sought by the Peabody Committee, Representing \$23,000,000 of the First and Refunding Mortgage Bonds of the Company.

Chicago, April 25.—An important action involving the fate of the Chicago, Rock Island and Pacific Railway company was begun here today in the United States district court before Judge Ferdinand A. Geiger when argument on a petition for foreclosure was begun.

Foreclosure is sought by the Peabody committee, representing \$23,000,000 of the first and refunding bonds of the company, the total issue of which is \$110,000,000. They contend that payment of interest by receiver's certificates is tantamount to default, arguing that this method really meant that the bond holders were being paid with their own money. L. C. Krauthoff acted as attorney for the Peabody committee. Holders of stock and receiver's certificates and of some of the bonds opposed this view. Mr. Krauthoff explained that the Peabody committee acted because the Central Trust company and David R. Francis, trustee of the mortgage bonds, decline to foreclose.

Henry V. Poor, attorney representing the Central Trust company, explained that his company did not want to seek foreclosure at this time because of the proposed reorganization of stock holders by Nathan Amster.

"The Amster plan," said Mr. Poor, "calls for \$25,000 of new capital from the stockholders. The plan will be in a state of uncertainty until May 15, the final date set for the stockholders to express their attitude toward subscribing for new stock. Granting the Peabody petition at this time might influence the stock holders against the plan and the Central Trust company prefers to give the plan a chance. If, after May 15 the stockholders have been unable to re-organize we may start action ourselves."

Attorney Lessing Rosenthal, opposing foreclosure, questioned the right of the Peabody committee to ask for it.

GOV. DUNNE TO HOLD HEARING ON BEDDINGER REQUISITION

SPRINGFIELD, Ill., April 25.—Governor Dunne announced today that he had acceded to a request from Governor H. D. Hatfield of West Virginia to have another hearing on the requisition for extradition from New York of Guy Beddinger, a former Chicago police sergeant who was named by Christian P. Bertsche, convict and former leader of the Clairvoyant ring in Chicago, as one of the alleged police bribe takers.

According to Governor Dunne, Governor Hatfield said the state's attorney of Cook county had been imposed upon and that the efforts to have Beddinger brought back to Illinois were really efforts to keep Beddinger from being taken to West Virginia in connection with another and more important case. All persons concerned are to be represented at a hearing to be conducted tomorrow in a Chicago hotel by Governor Dunne.

DUNNE DESIGNATES FRIDAY, MAY 19, AS GOOD ROADS DAY

SPRINGFIELD, Ill., April 25.—Governor Dunne today in a proclamation designates Friday, May 19, as Good Roads Day in Illinois. The recommendation of the governor is that on this day actual work be performed on the highways of the state and that programs in the schools be given over to the goods roads theme with addresses by competent persons.

"I respectfully urge that on this day the entire commonwealth will co-operate for the improvement of the highways of Illinois," says Governor Dunne in concluding the proclamation.

GERMANY HAS NOT ABANDONED HOPE

Wish to Know What Sort of Answer Would Satisfy the United States

CANNOT RUSH REPLY

Crisis Has Come to a Head When Public Men Are Widely Scattered from Berlin

NO UNFRIENDLY FEELINGS

BULLETIN.

BERLIN, April 25.—via London, April 26.—Prior to his departure for headquarters to consult with Emperor William, the submarine issue and Germany's relations with the United States again were under discussion today by Dr. Von Bethmann-Hollweg, the imperial chancellor, and James W. Gerard, the American ambassador.

No definite decision in the premises apparently has yet been reached and one probably will not be arrived at until the chancellor reaches headquarters tomorrow afternoon.

BERLIN, April 25.—via London.—The main purpose of the imperial chancellor's flying trip to Berlin has been, as is evident from his protracted conference with Ambassador Gerard on Monday, the desire to obtain as clear an idea as possible on the attitude and policy of the American government, what, if anything, lies behind and beyond the American note and what measures are necessary to satisfy the American demand, before the momentous decision is taken by the emperor and his advisers at headquarters.

Reply Cannot Be Rushed.

The crisis has come to a head in the midst of the Easter holiday—a season playing a high important role in German life, when public men are widely scattered from Berlin. Thus, the formulation of a reply to the American note, which presumably would spell peace or war, cannot be rushed. So far as Germany is concerned there still is a possibility of a settlement and hope has not been abandoned here. But the Germans, as is apparent from many conversations which The Associated Press has had with prominent men since the beginning of this crisis, wish to know before giving their answer what sort of answer would satisfy the United States, whether assurances of a properly conducted submarine would be satisfactory or whether further demands would be made on the German government.

Ambassador Gerard conferred on Monday with the imperial chancellor alone, none of the chancellor's advisers participating in the conference. He was able to give the chancellor little positive or authoritative information on the American policy.

Cables Account of Conversation. Mr. Gerard immediately called a long account of the conversation to Secretary Lansing and the feeling here is that if it were possible to obtain an answer from Washington before the German council is concluded and a decision adopted it might aid materially in the solution.

There is little expectation of that, however. There has been a distinctly better atmosphere in Berlin of late. On the day of the publication of the American note and for some time afterward an air of gloom prevailed regarding future German-American relations and many men spoke of a rupture as inevitable. The word now is that a settlement is within the reach of possibility and although it would be wrong to use the word optimism at the least the spirit of pessimism has notably abated and everywhere one hears the query, "What does America want, and can we satisfy President Wilson without abandoning the submarine campaign or does he want to prevent us from winning the war?"

No Unfriendly Demonstrations. During the crisis there has been an utter absence of unfriendly demonstrations against the Americans. The downtown streets for three days have been jammed with holiday crowds but there has not been the slightest intimation of any desire to organize a demonstration against the American embassy or even of popular curiosity regarding the doings there, and the big square between the embassy and the chancellor's palace has been left to the undisturbed and lazy tenancy of one policeman and one "paleolithic man" who for months have been posted before the embassy.

TOWNSHIP HIGH SCHOOL ELECTION

FRIDAY IN MURRAYVILLE

Voters Will Decide Question of Organizing District From Township 13-10 and Part of 13-11.

A special election has been called for Friday, April 28, in Murrayville to decide upon the question of a township high school and the many seem of the opinion that such a step would fill a decided need, indicating that the election will be a close one.

The new township high school district, as proposed, will contain township 13-10 and a part of township 13-11. Since the passage of laws providing for a four year course for all persons of high school age, without cost to the pupil, the movement for such schools has been greatly accelerated and many communities are forming township high school districts under the law of 1911.

Candidate for State Office.

Louis L. Emerson of Mt. Vernon is a visitor in Jacksonville and will spend a number of hours here today. Mr. Emerson is a well known banker who has had a large influence in his home city and surrounding territory for a long period of years. He has been identified with a number of civic betterment organizations in his own community, and has attained state wide prominence in others. Mr. Emerson is seeking nomination on the Republican ticket for secretary of state and his candidacy has already been received with marked favor. He is an able, clean, high class man.

The plot thickens in Illinois Republican politics. Sheriff Wheeler of Sangamon county who has been considered a candidate for nomination as secretary of state has just announced that he wants the governorship instead. And now comes the Chicago Tribune with the story that Logan Hay of Springfield, is a near candidate for governor. Along with the story is the statement that the Deenen influence in Chicago might be for Hay who is quite well versed in political ways, a man of large wealth and considerable ability.

The resignation of Chairman McCombs of the Democratic national committee it is said came because the chairman believed that President Wilson has someone else in mind to conduct his next campaign. It has been an open secret for sometime that perfect harmony did not exist between the president and the national chairman and the resignation did not come as a great surprise in the political world. Certainly Mr. McCombs made a showing in the last campaign which was credit to his generalship although his ability may not be classy enough for the coming campaign.

Those German Ships.

Secret service agents are said to have submitted reports that if a break between the United States and Germany comes that German ships now in the Boston harbor will make a dash for the open sea. If all the interned German ships along the Atlantic coast were to thus seek to escape, the United States with its navy stationed as at present could probably do little to stop the flight, and the condition furnishes some argument for the strong advocates of preparedness. But with England in control of the seas it doesn't seem likely that the German ships would seek safety in flight, for the peril on the sea would be greater even than that in the harbor.

April 26, 1741—Sieur Bohe Descloaux was nominated commissioner and judge civil and criminal for the Illinois country.

Give the public an opportunity for making first hand suggestions about any desired amendments in the public utilities act. At a conference in East St. Louis a Belleville attorney for the East St. Louis & Suburban Street railway and for other utilities, declared that his clients are strongly in favor of the public utilities commission and would not like to see it abolished. Public utility officials as a rule hold the same views on general questions, but judging from present day evidence, the Belleville attorney's ideas were not in line with those of the local utility management.

Supreme Court Aids Truthful Advertising.

In recent years there have been distinct advances in ideals and ideas about truthful advertising and a supreme court decision recently gives bids fair to give still greater impetus toward the movement. The court held in effect that advertisers, even tho they give purchasers value received for their money, are guilty of fraud if by exaggerated advertising language they lead clients to expect more than they receive.

The case was the result of use of the mails by a Florida company in selling ten acre farms. It had been held in a Florida court that the advertising was not fraud if a purchaser received his money's worth. But the supreme court reversed this finding, taking the position that it is an offense if the article sold does not measure up to the representations, no matter what the real value. The language of the court was, "When the pretenses or representations or promises which execute the deception and fraud are false, they become the scheme or artifice which the statute denounces. Especially is this true in the purchase of small tracts for homes." The movement for truthful advertising is beneficial to legitimate business and will tend to put out of business those firms and concerns that seek to live by fraud and dishonesty.

Legitimate business will profit because the people will begin to understand that when they read an advertisement they have the definite assurance that the facts and values will be as represented. Honesty in advertising is not only the best policy but means the most business.

The Cost of War.

Estimates of the cost of the great war have reached such figures that they are almost beyond comprehension. The latest compilation of figures shows that the war cost per hour in England, France and Russia is approximately \$2,500,000, while for Germany and allied nations the cost is in excess of \$1,000,000 an hour. If the present rate of expenditure continues until August 1 next the war cost will have reached the enormous total of \$45,000,000,000. With no signs of peace in sight, it now begins to look as if this war, as some military students predicted early in the conflict, will not cease until there has come complete exhaustion of resources.

Now along with the present horror and suffering there comes the minor but still important thought of the terrific burden of taxation that is being placed upon coming generations. The thought of this great burden leads some students to predict that the time of repudiation of obligation will come and this thought is even worse than that of the burden of taxation.

Chicago Postmastership.

The nomination of Dixon Williams as postmaster in Chicago does not seem to have settled the long existing controversy about whom shall succeed Postmaster Campbell. As a result of the differences Mr. Campbell has already served two months longer than the term for which he is appointed and is probably not worrying about whom his successor will be. The choice of Williams for the important position seems to be the result of his friendship with Postmaster General Burleson, and the suggestion was not satisfactory to either of the Democratic political factions in Chicago.

Senator Lewis is likely to oppose the Williams appointment, but possibly this opposition will be given just as solace to the disappointed ones who sought the office, for it is not at all likely that President Wilson will fail in securing confirmation of the man named in deference to the wishes of a member of his cabinet.

Selecting Board Members.

There are many friends of schools in Jacksonville who are earnestly hoping that a good list of candidates may be secured for membership in the new board of education. They are at a loss to know just how the best candidates are to be secured and have a feeling that some organized effort should be made in this line.

It has been suggested that it would be well within the realm of the proper activities of the Chamber of Commerce if that organization should call a general meeting to discuss the question. Some organized effort should be made to secure the right men and women for board membership, but for the good of all concerned any such organized work should be done in the open so that there can be no charge of politics or the effort on the part of any individual or set of individuals to secure control of the schools. In fact, there should be no desire to control the schools except for the benefit of scholars. The schools have no place among the assets in a political category, and their one function is to provide the best possible education for reasonable expenditure for the boys and girls of Jacksonville.

The president and members of the new school board must serve without a salary and their reward must be the honors of the position which they will hold and the pleas-

ure they may find in contributing to the general good by working for the school system. Some organized effort would no doubt result in men and women consenting to be candidates who would be somewhat reluctant to simply seek preferment without their candidacies having been suggested and favored by their friends.

There are possibilities in the general law for an advancement in school conditions, but like any other form of government, the progress made will depend upon the persons elected. School control is just like a municipal government, good results will not come from any particular form of organization unless the right people are the officials in charge.

MANY CASES OF MEASLES IN WINCHESTER VICINITY

Spread of Epidemic Not Looked For
Too Cases Are Reported From
Over County — Divorce Decrees
Granted—Woman's Club Meeting.

Winchester, Ill., April 25.—Sixty cases of measles have been reported here and tho the epidemic seems to be practically at a standstill, each day recently has seen the report of two or three new cases. Twenty are absent from the high school on account of the disease. Cases among the M. E. church congregation led to the postponement of baptismal services until next Sunday. The epidemic is not confined to Winchester as Bluffs and other portions of Scott county send reports of an outbreak. As yet there have been no fatal cases and it is believed generally that the spread of the disease has already reached a maximum.

Divorce Decrees Granted.

Court was opened Monday with Judge Creighton of Springfield presiding, and tho the docket is not excessively heavy, several decrees for divorce were granted the first two days of the term. Among the entries are:

People vs. Herbert Dennis, alias Harry Porter, charged with forgery. Dennis waived trial by jury, pleaded guilty and was sentenced to a term in the state reform school at Pontiac.

Smith E. Foutche vs. Inez Foutche, divorce. Decree granted.

William Gray vs. Elizabeth Gray, divorce. Decree granted.

Cleo Cumley vs. Earl Cumley, divorce. Decree granted.

Margaret Hicks vs. Asa Hicks, divorce. Decree granted.

Cora Mathews vs. George R. Mathews, divorce. Decree granted.

Lorena Perry vs. Rees Perry, divorce. Decree granted.

Spoke on Textiles.

Women of the General club held a profitable session Tuesday night in the auditorium of the grade school building when Miss Jennie Cashion of the art institute at Chicago gave an address on "Textiles and Fabrics."

There was a good attendance and the address by Miss Cashion was much enjoyed. At the beginning of the program Miss Louise Frost favored the company with a solo.

The revival series held by the Methodist, Baptist and Presbyterian churches closed Easter Sunday. Interest has been generally good throughout the series and Sunday the total accessions to the Baptist and Presbyterian churches numbered thirty-eight, and as already mentioned, the Methodist church will receive converts next Sunday.

An Old Aphorism

Early to bed and early to rise,
Makes a man healthy, wealthy, and wise.
But to try this plan and nothing more,
Would make a farce of this metaphor.
For if you'd be healthy you must eat,
A liberal diet of good, fresh meat.
Your health is essential to wisdom and wealth,
Which makes every man consider himself
When it comes to the kind of meat; and plan
To get it fresh from the Butcher Man.

PREACHER FACES SECOND TRIAL ON GIRL'S CHARGES

Rev. Madison Slaughter is Accused of Crime, But Has Support of His Congregation.

Oroville, Calif., Apr. 25.—Rev. Madison Slaughter, pastor of the Baptist church at Chico, Calif., will go to trial for the second time, today, on the charges of assault brought against him by a fifteen-year-old girl, Gertrude Lamson. The jury in the first trial, which was one of the most sensational court cases in California history, failed to agree, after offering to convict the minister if the judge would promise probation for him.

Rev. Mr. Slaughter was indicted in January on five charges of assault. Before the case came to trial in March, the parents of the girl testified before Slaughter's congregation their belief in the pastor's innocence and both testified at the trial against their daughter. The defense introduced confessions signed by the girl, in which she admitted her charges were false. When she testified, at the trial, she declared that she had been induced to sign the confessions because she had been told that her refusal would endanger her mother's life.

Partisan feeling over the indictments and the first trial has split Chico into warring factions, so bitter that Judge Gregory ordered that no sermons or lectures on the case should be delivered during its progress.

Slaughter has continued to hold his pastorate, and his congregation is backing him in the court fight. Other residents of Chico have bitterly denounced the accused minister, and he has been hanged in effigy. Some of his parishioners have also been antagonistic to Slaughter, and one of the deacons was suspended. Mrs. Lillie R. Davis was read out of the church because her accusations against the pastor, accusations which were in fact the very foundation of the charges on which the five indictments were returned by the Grand Jury.

Gertrude Lamson worked in the home of the Rev. M. Slaughter during the month of September, 1915. Her mother had asked the minister to try to find a position for the girl, and he had offered to give her temporary work at his home. The accusations brought by the girl later are denied by Slaughter, who claims he is the victim of falsehoods.

SECOND CONTINGENT OF RUSSIAN TROOPS ARRIVES AT MARSILLES

Great Crowds Gather at the Quay to Witness the Disembarkation.

Marseilles, April 25.—Marseilles again was the center of great enthusiasm as another contingent of Russian troops arrived unexpectedly. Great crowds gathered at the quay to witness their disembarkation.

It was a stirring scene as the Russians lined the decks of the transports returning the cheers from the crowds massed along the shore, while the flotilla of warships and merchantmen in the harbor saluted with flags and salvos of booming cannon. A regiment of French Hussars was drawn up along the quay as a guard of honor the French bands playing the Russian national hymn, to which the Russian bands responded with the Marseillaise.

The governor of Marseilles and the commander of the Marseilles military district headed a distinguished gathering of French officers who extended hearty greeting to the newly arrived Russians.

After an exchange between the French and Russian officers, the disembarkation of the troops began amid continuous hurrahs by the crowds which were swelled by a large number of workmen from the surrounding factories and docks.

The Russians formed platoons and with flags flying marched thru the principal streets. Everywhere along the route they received an ovation. They were greeted with a fan fare by the French trumpeters of the Sixth Hussars and were welcomed when they came out of the boats by 150 wounded soldiers which had been transported in ambulances and the tramcars to the quay.

Having paid this tribute by men who had actually shed blood in the common cause the Russians showed great devotion to the French wounded and cheered as the wounded departed.

The new troops are composed of young men of excellent appearance and sturdy bearing, similar to those in the previous detachments.

Other nominees were classed as Sullivan men.

Counsel for Clemenson placed witnesses on the stand to testify that the physician was not at home on the night of the murder. MARQUIS OF CREWE MOVES SITTING OF HOUSE OF LORDS BE IN SECRET

Makes Statement in Behalf of Government Why Course Should be Adopted.

London, April 25.—The Marquis of Crewe is moving today that the sitting of the house of lords be in secret made a statement on behalf of the government why this course should be adopted.

Altho the members of the cabinet all were set on the achievement of a victory, the Marquis said, they did not agree concerning the number of men who were available for service in the army and navy, nor did they agree as to the proper means for securing those who were available.

The course which the government proposed to commend to parliament the Marquis added, might not meet with the full desire of persons of either extreme views and therefore, it was the government's duty to recommend it as far as possible to the opinion of parliament as a whole, which necessitated the making of a statement containing confidential information, hence the government had decided to hold a secret session, publishing at an early date a considered description of the proposal which the government in due course would make to parliament and the country.

WAR COSTING NATIONS OF EUROPE MORE THAN NINETY MILLIONS A DAY

NEW YORK, April 25.—War now is costing the Nations of Europe more than ninety million dollars a day, according to estimates prepared in a booklet to be issued by the Mechanics and Metals National Bank of this city. Of this enormous total, the principal burden falls on the entente allies. The bank estimates that the cost per hour to England, France and Russia is approximately \$2,500,000, while to the teutonic empires the cost is in excess of one million dollars.

The total cost of the war, if it is still in progress August 1st, next, will have been \$45,000,000,000. Of this sum Great Britain's share will have been \$11,600,000,000. Germany's a trifle less and France's \$9,250,000,000.

Two years of the war, the booklet states, will cost six times more than the full amount expended in the civil war; will reach a sum forty times more than the amount of our national debt and will be 120 times more than the cost of the Panama Canal.

SUB-COMMITTEE OF MINERS AND OPERATORS UNABLE TO RELE

NEW YORK, April 25.—The sub-committee of anthracite coal miners and operators which has been in almost continuous session for two months on the demands of the miners for increased wages, an eight hour day, recognition of their union and other adjustments, announced at the conclusion of today's conference that they had been unable to reach an agreement.

The committee, it was announced, would so report to a joint conference of the full committee to be held here Thursday. The consensus of opinion among the members of the tri-district board representing the miners was that the failure to reach an agreement would result in a strike.

ALLIES CONTENT PRACTICES ARE JURIDICALLY SOUND

Note Pledges Allies to Make Restrictions on Trade as Little Burdensome to Neutrals as Possible.

Washington, April 25.—The late British note in answer to American protests against Allied interferences with neutral trade, made public tonight at the state department, contends that the practices complained of are juridically sound and valid, and that the relief which neutrals seek is rather to be obtained by the mitigation of necessary hardships than by abrupt change either in the theory or application of a policy based upon admitted principles of international law carefully adjusted to altered conditions of modern warfare.

It discloses that "an impartial and influential commission" has been appointed to find ways to minimize delays and pledges the allies to make their restraints on trade as little burdensome to neutrals as possible.

The note in which the French government concurs, reiterates the military necessity of regulating commerce to neutrals contiguous to Germany and justifies the effectiveness of the blockade which was challenged by the last American note.

More diplomatic correspondence over the issue is expected to follow. The unanimity of sentiment among the world's neutrals for the protection of neutral rights is recognized in the British note which refers to the subject in terms embracing the rights of trade alone.

LANSING DEPRECATES THE PUBLICATION OF REPORTS

WASHINGTON, April 25.—Secretary Lansing in a conference today with newspaper correspondents, deprecated the publication of reports that official dispatches to the state department from Ambassador Gerard indicated that Germany might make concessions to the United States in reply to the note demanding the immediate abandonment of present methods of conducting submarine warfare. He said official dispatches to the department from Berlin contained only quotation of newspaper opinions similar in many cases to the editorial excerpts called to this country in press dispatches. The last dispatch received from Mr. Gerard, Secretary Lansing said, was dated before the imperial chancellor, Dr. Von Bethmann-Hollweg, had returned from a visit to the emperor at the front and had conferred with the ambassador. It is understood here that one of the objects of the various conferences known to have taken place between officials of the Berlin foreign office and Ambassador Gerard has been to make it plain to the ambassador that there would be no avoidable delay in responding to the American note demanding immediate action.

A WELCOME VISITOR.

David H. Hamilton of Eureka, Kans., is in the city for an unusual purpose. For many years the gentleman was a resident of this place and the writer well remembers when Mr. Hamilton had a shoe shop on West State street just east of Wiegand & Widmayer's meat market. He subsequently removed to Kansas where he has been for a number of years. He is here to receive a jewel awarded those who have been fifty years membership of Urania lodge No. 243, I. O. O. F. He completed his half century the 19th of the present month and has been a member longer than any one living. There is to be a meeting shortly when the honor will be conferred on Mr. Hamilton and he is here to receive it. He spent considerable time yesterday going around among old friends, many of whom he met. He also called on his long time friend, Mayberry Walter, who is now sick at his home on Edgmon street.

Mr. Hamilton also says his family have taken the Journal longer continuously than any other persons. They began in 1841 when the paper had a different name and have kept on until the present time with no intention of discontinuing.

Mr. Hamilton is looking remarkably well and a stranger wouldn't suppose him to be old enough to receive the jewel he is here to get. His constitution is fine and his habits have been excellent.

ASSOCIATED PRESS HOLDS ANNUAL MEETING AND ELECTS DIRECTORS

Dr. Nicholas Murray Butler of New York is Guest of Honor and the Speaker at Luncheon—Frank B. Noyes Offers Toast to President Wilson.

New York, April 25.—At the annual meeting of the Associated Press held here today the following directors were elected:

Charles A. Rook, (Pittsburgh (Pa.) Dispatch.

Charles Hopkins Clark, Hartford (Conn.) Courant.

Clark Howell, Atlanta (Ga.) Constitution.

V. S. McClatchy, Sacramento (Cal.) Bee.

Elbert H. Baker, Cleveland (O.) Plaindealer.

Oswald Garrison Villard, New York Evening Post.

The following were among the advisory boards and committees elected:

Central Division.

Advisory board: E. P. Adler, Davenport (Iowa) Times; J. L. Sturtevant, Wausau (Wis.) Record-Herald; A. C. Kelfer, Terre Haute (Ind.) Tribune; P. E. Burton, Joplin, (Mo.) News-Herald; J. C. Seacrest, Lincoln (Neb.) Journal.

Nominating committee: H. V. Jones, Minneapolis (Minn.) Journal; C. C. Marquis, Bloomington (Ill.) Pantagraph.

Auditing committee: O. B. Brandenburg, Madison (Wis.) Democrat.

The guest of honor and the speaker at the luncheon in connection with the meeting was Dr. Nicholas Murray Butler of New York.

In a toast offered to President Wilson, Frank B. Noyes, of Washington, D. C., president of the organization tendered "our affectionate sympathy and our loyal support to the man who by virtue of his great office is our spokesman to the world and who speaks for our right and our honor as God gives him to see our rights and our honor."

Mr. Noyes' audience included newspapers publishers and editors from all parts of the country. He said in part:

"On similar occasions in past years I have dwelt on the heterogeneous character of the membership of the Associated Press mainly for the purpose of emphasizing the fact that varied as are our opinions on any one subject we all agree that each and everyone is a loyal American."

"The 900 who compose our membership exercise their inalienable right of holding an opinion on every conceivable subject, including the relations of this government with foreign powers and this right they hold and exercise in common with the rest of the hundred million Americans."

"This, broadly does no great harm, because however, unwise the opinion thus individually held, no one else is committed by its expression."

"Our form of government provides that the duty and obligation of voicing the opinion of this nation in its intercourse with foreign nations rests with and is imposed upon our chief magistrate. When he speaks for us in the course of that intercourse he speaks for all of us."

"It is a very great, indeed, a very terrible responsibility for a man to bear at any time."

"Today with a world drenched in blood, writhing in anguish for those already dead or maimed the responsibility is immeasurably great and immeasurably terrible."

"So in this hour of uncertainty as to what the immediate future may bring to us, we tender our affectionate sympathy and our loyal support to the man who by virtue of his great office is our spokesman to the world and who speaks for our right and our honor as God gives him to see our rights and our honor."

"It is the custom at these annual gatherings to drink but one toast. Today I offer it with a full heart."

"I give you the health of our president, Woodrow Wilson."

Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Dr. Price's, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

THREE-EYE LEAGUE BEGINS ITS FIFTEENTH CAMPAIGN TODAY

Peoria Plays at Quincy, Rock Island at Moline, Rockford at Davenport and Bloomington at Hannibal.

Chicago, April 25.—The Three Eye League begins its fifteenth campaign tomorrow under auspices more favorable than those which surrounded its start last season. Difficulties which faced it at the beginning of the season in 1915 and threatened to interfere this year have been removed, it is believed. The question of the make-up of the league, which seemed for a time to be a knotty one was settled by awarding the Freeport franchise to Hannibal.

Schedule troubles which came up thru the difficulty of avoiding conflicts in the neighboring cities of Moline, Rock Island and Davenport, have not been entirely cleared but the owners believe that a schedule satisfactory in the main can be drawn up and meanwhile temporary arrangements will prevail.

Opening games tomorrow are as follows:
Peoria at Quincy.
Rock Island at Moline.
Rockford at Davenport.
Bloomington at Hannibal.
President A. R. Tearney who will attend the game at Davenport, assigned umpires as follows:
Becker and Eddington at Moline.
Gaston at Davenport.
Struthers at Quincy.
Brown at Hannibal.

MISS FRANCES ENGLISH HOME.

Miss Frances English has arrived from Chicago and is at the home of her parents, Mr. and Mrs. S. W. Nichols, 717 West College street.

P. A. will win you speed-o-like-a-flash!

We tell you, any man can smoke Prince Albert with the utmost enjoyment; smoke pipe-full after pipe-full or the makin's until the gong sounds, without a kick back or a complaint! Yes, sir; he'll just please himself to pieces with P. A.'s cool fragrance and absence of bite and parch!

Prince Albert is made by a patented process that cuts out bite and parch! Prince Albert has always been sold without premiums or coupons. We prefer to give smokers quality.

PRINCE ALBERT

the national joy smoke

Buy Prince Albert everywhere tobacco is sold. Tunny red bags, 5c; tinned tins, 10c; hand some pound and half-pound tins humidor—and in that fine crystal glass round humidor with sponge-moistener top that keeps the tobacco in such splendid condition—always!

So it's up to every red-blooded man to jump the boundary line between himself and smoke happiness and know just what all this jimmy-pipe-joy-talk and makin's talk is about!

Men all over the world are today smoking Prince Albert because it meets their taste; because it gives them real tobacco enjoyment they have never found before!

Don't you realize that if Prince Albert, in a few years, has made three men smoke pipes where one was smoked before and started men everywhere rolling their own cigarettes, that it certainly has the call on you—at least for a try-out!

Why, that's only being fair to yourself!

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y.—"For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KOENIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

A Fine Aid For Mother-to-be

A Helpful Influence At This Most Interesting Period in Woman's Life

We are all greatly indebted to those who tell their experiences. And among the many things which we read about and are of immediate importance to the expectant mother, is a splendid external remedy called "Mother's Friend." This is applied over the muscles of the stomach. It is deeply penetrating in its influence. Mothers everywhere tell of its soothing effect, how it always pains incident to stretching of the abdominal muscles. They tell of restful comfort, of calm, peaceful nights, an absence of those distresses peculiar to the period of expectancy, relief from morbid sickness, no more of that apprehension with which so many young women's minds become burdened. It is a splendid help. Get a bottle of "Mother's Friend" from your nearest druggist. Ask your husband to get it for you. Then write to Bradfield Regulator Co., 808 Lamar Bldg., Atlanta, Ga., for a very handsome and instructive book. It is filled with suggestive ideas of great help to all women interested in the subject of maternity. And best of all are some letters from mothers that are real inspirations. Write today.

We can go back half a century for letters from women who used "Mother's Friend." And it was this sort of recommendation that extended its use until today it is sold in almost every drug store in the United States. It is considered a standard remedy and one of the most efficient helps known. Directions for using are very easily complied with and it may be used at any time whenever needed.

Mrs. Mary J. Dohy and Mrs. Sarah Dickerman, by Kirby, Wilson & Brockhouse, have filed a bill against Sherman Spencer et al. The bill sets forth that in September, 1885, certain property on South East street was transferred to the late Henry Dickerman as trustee by Mrs. Dohy and Mrs. Dickerman for the purpose of furnishing the late David Spencer with a home during his lifetime. It was a part of the transaction that at some future date \$450 each should be paid to Mrs. Dohy and Mrs. Dickerman, representing the amount they paid for the property, without interest. The property was sold two years ago for non-payment of assessments, and was bid in by the city of Jacksonville. It is maintained in the bill that the claim of Mrs. Dohy and Mrs. Dickerman takes precedence over any that the city may have.

NOTEBOOK FROM THE EDUCATOR'S

Cleveland, O.—Three generations of the same family attend Oberlin College, grandmother, mother and son. This simultaneous thirst for knowledge is said to be a record-breaker. Edward Martin, 20, is the youngest of the family at Oberlin. His mother, Mrs. Leila Martin, is studying economics and sociology, and is a member of two of her son's classes. Her mother, Mrs. Hannah M. Moss, attends lecture courses in literature and religion.

Billings, Mont.—One of the unique technical schools of the country is the Polytechnic at Billings. It is independent of state control and state aid. It is designed to fill a new sphere, to teach young people who would not fit the old line courses of study, laid down in the public school system. No credits are demanded from the entrant. Work is adapted to the needs of each pupil. Each boy is considered a special case, and sympathetic teachers stand ready to help him. A faculty of 14 specialists live in the cottages with the students. Every kind of vocation is to be taught. Altho it was designed to aid students in Montana and Wyoming, many boys are entering from distant parts of the country. A conservatory of music is being built, and twelve hundred persons, all living in the eastern states gave the money with which to erect the beautiful hall for girls. James J. Hill gave a large sum for the purchase of the site of the new school.

San Francisco, Calif.—The Fine Arts Palace, one of the magnificent buildings of the Panama Pacific exposition, will be taken over by the city next week, and it will be dedicated to art education. A lecture room will be fitted up in the palace, to be devoted to the art education of the children in the public schools. The big building is being secured thru the efforts of the teachers and the women's clubs.

STATES GET TOGETHER ON INDUSTRIAL ACCIDENTS

Columbus, O., Apr. 25.—Officials and professional men engaged in administering the industrial accident laws of the various states, and of Canadian provinces, are gathered here today for the third annual meeting of the International Association of Industrial Accident Boards and Commissions. The program is laden with papers, lectures and discussions on the various phases of the different laws on compensation and accident insurance, and the Association is striving to make the experience of each law valuable to the legislatures of all states, so that uniformity under the most efficient methods of administration will be reached. The meetings cover four days, and every phase of the modern problem of workmen's compensation for accidents will be treated by able speakers who have been in touch with the work.

Among today's speakers are William C. Archer of New York, Wayne C. Williams of Colorado and Fred K. Wilcox of Wisconsin. One of the most important addresses of the conference will be delivered by Commissioner George A. Ingston, of the Ontario Compensation Bureau.

CHURCH CONFERENCE ON WORLD PEACE

Garden City, N. Y., Apr. 25.—The Church Peace Union, supported by funds given by Andrew Carnegie, opens a conference on world peace today. The big ministerial meeting will be conducted on lines of the Constantine Conference which was broken up in 1914 by Europe going to war. A world alliance for peace, thru the efforts of the churches, is the object of the conference. President Faunce of Brown university, President King of Oberlin University, Bishop Greer of New York and Dr. John R. Mott, of the International Y. M. C. A., are the leaders of the conference.

It is hoped by the conference to bring the influence of the churches to bear upon peace proposals, and to enter more generally into whatever decisions shall be made when the war ends. The claim is made that to some extent communication is still maintained with German and English societies of ministers. The Union states that most minister in all the belligerent countries, as well as those in neutral countries, believe the war can be ended, and oppose any preparations that may look to future wars.

STOCKS OPEN WITH OUTBURST OF BULLISH ENTHUSIASM

Offerings Are Confidently Absorbed
Until Mid-day When Activity and
Advance Comes to a Halt.

New York, April 25.—Wall street's belief in the increasing betterment of the country's external relations was exemplified by a further advance in prices today, although some of this advance was forfeited in the final hour. Overnight advices from Berlin suggested a willingness from that quarter to grant concessions and there were other signs of a diminution of the strain.

This was partly nullified, however, by reports of grave disturbances in Ireland and indications of another disagreement in the British cabinet. Continued delay in the French credit negotiations with our bankers was ascribed to the inability of the contracting parties to arrive at a definite understanding regarding the character of the underlying collateral.

The market opened with another outburst of bullish enthusiasm and a stampede of the shorts, active specialties advancing 1 to 3 points in the first hour and increasing this lead before mid-day. There were free offerings on the rise, but these were confidentially absorbed until mid-day when the activity and advance came to a halt. Thereafter dealings dwindled and prices manifested some irregularity. Traders were inclined to regard United States Steel as a barometer of the market, that stock's advance of 1½ points in forenoon being accompanied by rumors of an "extra" dividend by the directors, who were to meet after the close of the market. As it afterward developed the steel board at no time considered the question of an additional disbursement, although it was admitted that the record earnings would have justified such action. Mercantile marines were the dominate issues, combined dealings in the preferred and common shares, at extreme advance of 3½ points.

Rails in general were firm to strong, except New Haven, which showed marked weakness, yielding 2½ points on fairly large dealings. Totals sales of stocks amounted to 900,000 shares.

CONFIDENCE IN FAVORABLE END OF CRISIS ADVANCES WHEAT

Prices Close Strong at 1½ to 2½ Cents
Net Higher—Other Leading Staple
Score Gains.

Chicago, April 25.—Growing confidence that the crisis with Germany would not cause a break in diplomatic relations had much to do with a fresh advance today in the value of wheat and so also had stormy weather in the spring corn belt.

Prices closed strong 1½@1½¢ to 2½¢ net higher, with May at \$1.13½@1.13½ and July at \$1.14½@1.14½. Other leading staples, too, scored gains for the day; corn ¼ to ½¢; oats ¼¢ to ½¢ and provisions 15 to 27½¢.

Upturns in the wheat market formed the rule except right at the outset, when owing to lower quotations from Liverpool some hesitancy was evinced. The fact, however, that New York stock prices were on the rise and that the gains were ascribed to improvement in the prospect for a lessening of the strain between Washington and Berlin appeared sufficient incentive for a majority of wheat traders to take squarely the bull side at least for the time being. Sentiment against the bears increased noticeably after word came that rains in North Dakota and Manitoba were spreading, and that delays to seeding which were already grave would be rendered correspondingly worse.

Export sales in the east aggregating 750,000 bushels counted further in favor of higher prices, a result which was given additional emphasis by announcement of lower freight rates on the water from Duluth thru to Buffalo.

Corn hardened chiefly in sympathy with wheat and as a result of sea-board demand, said to be influenced by a reduction of the Argentine surplus. Gossip was current that estimates of 200,000 bushels of corn daily is being made into starch by Ohio, Indiana, Illinois and Kentucky factories, presumably for export to be used in the manufacture of explosives.

Oats were governed by the action of corn and wheat. Export sales of oats amounted to 500,000 bushels.

Lard went to a new high price record for this season and continued to lead an advance in provisions. The unusual demand for lard was explained as reflecting not only big export transactions, but also materials for the manufacture of glycerine.

CHICAGO LIVESTOCK MARKET.
Oliver S. Green with Walter Bros., U. S. Yards, Chicago, reports the estimated receipts for Monday, April 24th, 1916:

14,500 cattle.
33,000 hogs.
18,000 sheep.

The light run of cattle for a Monday's market was sufficient to fill the demand. Bulk sold steady to firm, with some lots of odd to choice as much as 10c higher. The general trade was on a par with last Wednesday. The demand was not broad for prime offerings and but few extra on sale. The best demand was for good mediums. However, the market was not as "snappy" as was expected on the moderate supply, owing to slow beef outlet.

Sheep stock uneven. Steady to 10c higher was the general condition of sales. Canners' dual bulls 10c higher. Calves 25 to 50c lower. Feeder cattle unchanged with a narrow demand from the country.

No steer cattle as prime as the quality and finish as the top cattle last Wednesday.

KANSAS CITY MARKETS.
Kansas City Stock Yards, April 24, 1916.—There was no change in stocker and feeder prices last week except the usual concessions that yard traders always make at the end of the week, in efforts to effect a clearance. There was a good demand from all quarters, and some of the prices paid for fancy cattle looked as high as any time this year.

The cattle supply was fairly large during the week, and 11,000 head of stockers and feeders were bought and shipped out, 1,100 more than in previous week. The supply today is 9000 cattle, market unchanged from a week ago on nearly all kinds of cattle, including stockers and feeders.

Beef steers lost a little late last week, but regained it today, and the general cattle situation looks as strong today as it has any day this year. Several feature transactions marked the stocker and feeder trade recently, including the sale of some fancy bred Panhandle short yearlings today at \$9. Good bred stockers are selling around \$7.75 and straight feeders at \$7.85 to \$8.25. Fleishy feeders sold last week up to 9.10 and a Knox county, Illinois, man paid \$8.75 for 50 head of 148-lb. feeders. A Monroe county, Missouri, man paid \$9 for fancy bred yearling steers last week. Two cars of fancy bred yearling heifers, 502 lbs. average, were brought here for a stock farm in Virginia last week, at \$9.45 per cwt. A shipment of bred cows four years old and upwards, all heavy with calf, average weight 950 lbs., were picked up in small lots at an average of \$6.25, this lot looking well worth the money. There is an active trade in immune stock hogs, good natives weighing from 70 to 115 lbs., costing around \$9.75, and good Southwestern \$9.50. These hogs have had a scant ration as a rule, besides having passed thru the shrink incident to immunizing, and are all set for quick gains in the feed lot. Brusher goats are the main item of country interest in the sheep house now, and there are plenty of them coming. 900 goats here today. Goats will come freely for three or four weeks, but the best time to buy is while they are coming in large numbers. Best Angora brushers weighing 60 lbs. sold at \$5.25 today, more common Angoras \$4.90 to \$5.15, slick haired Mexican brushers \$4.00 to \$4.75, with almost any number available in any class.

On the Remington and Nowhere Else

Here are two facts about the Remington which every typewriter buyer should know:

1. The Remington Column Selector adds 25 per cent. to the letter writing speed of the typist. This is not a claim or an estimate. It is a definite fact—proved and established by any number of comparative tests.

2. The Column Selector is a Remington feature exclusively. No other machine has it—or anything like it.

To Our Customers

We have steadily been endeavoring to give you an unequalled gas service. To this end we have rebuilt our gas plant at a cost of \$30,000.00. We are making gas which as to heat units, candle power and purity is better than the standard required by the Illinois or any other State Public Utility Commission.

The only complaints which we receive are those caused by pressure difficulties. In order to keep the pressure at every house connection up to the standard we have entirely worked over our present distribution system. To care for the demands of the future and to give standard pressure gas to every home we have planned a "booster" system. These plans contemplate a twelve inch main from the plant west on Anna street to South Fayette street, north on South Fayette street to West State street, thence west of Webster avenue. An eight inch main from the plant south on South Main street to West Morton avenue also a six inch main on Anna street between Diamond street and Prairie street.

These large "booster" or transmission mains will be in addition to the present mains on the streets in question. They will take gas at high pressure from the plant and distribute it to service beyond their terminals which will correct all pressure difficulties.

This installation will cost to exceed \$20,000.00. Eleven carloads of pipe are now in the city. The plans have been filed with the city council with our request for permission to begin work. As soon as this permission is granted we shall begin laying this pipe and rush it to completion.

When this addition to our gas distribution system is made Jacksonville will have a gas plant second to none of similar capacity in the state.

A New Model Typewriter

It is just out—and comes years before experts expected it. For makers have striven a life-time to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9". Think of touch so light that the tread of a kitten will run the keys!

CAUTION

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little fingers of the right and left hands. And it lets you write them all with only 28 keys, the least to operate of any standard typewriter made.

Thus writers of all other machines can immediately run the Oliver Number "9" with more speed and greater ease.

WARNING

This brilliant new Oliver comes at the old time price. It costs no more than lesser makes—now out-of-date when compared with this discovery.

For while the Oliver's splendid new features are costly—we have equalized the added expense to us by simplifying construction. Resolve right now to see this great achievement before you spend a dollar for any typewriter. If you are using some other make you will want to see how much more this one does.

If you are using an Oliver, naturally follows that you want the finest model.

17 Cents a Day Remember this brand-new Oliver "9" is the greatest value ever given a typewriter. It has all our previous special inventions—visible writing, automatic spacer, 6 1/2-ounce touch—plus the Optional Duplex Shift, Selective Color Attachment and all these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every user can easily afford to have the world's crack visible writer, with the famous PRINTTYPE, that writes like print, included FREE if desired.

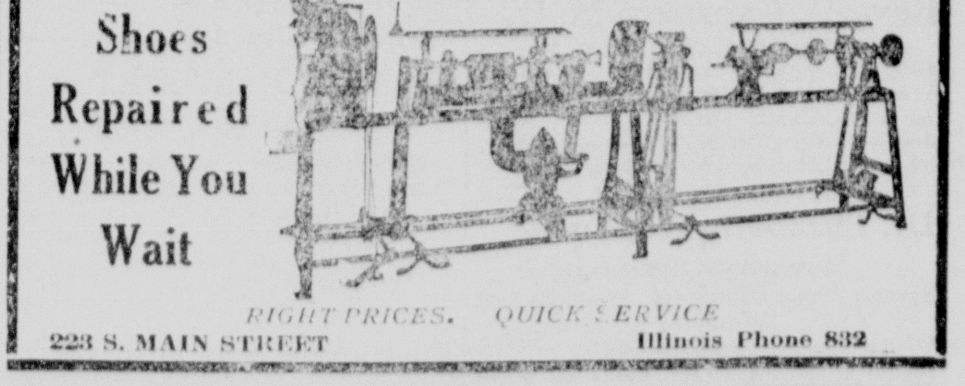

Today Write for full Details and be among the first to know about this marvel of writing machines. See why typists, employers, and individuals everywhere are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to tell you about it.

ENGLISH FLIGHT LIEUTENANT HAS CLOSE CALL

In a letter to a Jacksonville man from England an interesting story is told of the exploits of an army aviator. The aviator is Dudley Gardner, a flight lieutenant with the royal flying corps in Egypt. Not long since he received orders to make a reconnoitering trip about four hundred miles inland from the camp, where he was stationed to investigate the doings of a certain tribe said to be on a rampage. The lieutenant made the trip and had not been conducting his observations long when he was fired upon and in response let fall several bombs in the vicinity of the tribe headquarters. Then he returned to make report and when about three miles from his landing place the gas tank exploded. Fortunately he was able to recover the balance of the aircraft and was able to volplane to the ground without injury to himself or the machine. This was but one of a series of experiences that the lieutenant is meeting in his every day work.

MURRAYVILLE ODD FELLOWS OBSERVED 97TH ANNIVERSARY

Birthday of the Order Celebrated
With Appropriate Program—Sixty
Responded to Roll Call—Letters
Read from Many Old Members.

Murrayville Lodge Number 415, I. O. O. F., acting on the recommendation of the Grand Master decided to observe the 97th anniversary of the institution of the Order in America. April 25th is the actual date set for the observance of the celebration, but on account of other engagements of active members of the lodge it was found desirable to hold the meeting on April 24th, which was the regular meeting night of the lodge.

In order to insure a good attendance and add to the interest of the occasion a roll call of the membership was ordered and the secretary having previously notified all members of the lodge at their various addresses the brothers of the lodge and brothers of other lodges living in the community to the number of about sixty, responded in person, in addition to which brothers living in other states responded by letter.

Among those responding by letter were Bros. Archie Kingsley of Valley, Oklahoma, and Edward Blackburn of Alton, Illinois. Brother Kingsley is an old and highly valued member of the Murrayville lodge and his letter was warmly received and highly pleasing to the older members who knew him intimately as a friend and co-worker and his letter was inspiring and helpful to the younger members who know him by reputation. A short form of ceremonies prescribed for Anniversary celebration was given by the Noble Grand, Vice Grand and Chaplain, being a historical review of the Order, its origin, objects and aims.

Degree Staff Gave Drill.

The special order of the evening having been observed the lodge proceeded to close in regular form. At this juncture, the lodge being adjourned, the committee announced another number on the program. The Rebekah Degree Staff practicing a drill at Carle's hall had been invited thru their captain, J. H. Dial to put on their drill for the entertainment of the brothers, now appeared at the lodge room doors. Mrs. C. R. Short, pianist for the staff was conducted to the piano and she proceeded with a lively march, the staff, preceded by their captain, entered and put on their drill in a faultless manner.

This feature was highly enjoyed by the members, the more so as it was an entire surprise all round, none but the committee knowing of the arrangement, and the ladies of the staff not knowing of it until a few minutes before the time, they were apprised by their captain, Mr. Dial. The drill concluded, refreshments consisting of apple pie a la mode, grape juice and apples were served.

Brother C. T. Daniel, a resident here, but a member of Ashland lodge and Brother Ross of Manchester but a member of Illini lodge No. 4, gave splendid talks while the refreshments were being enjoyed, also Sister Mabel Walker, Noble Grand of the Rebekah lodge and Sister Ludella Seymour, District President and others of the staff responded in a happy manner.

Altogether it was an enjoyable and profitable occasion, and the committee are receiving many congratulations on the success of program.

LIQUOR CASES NOW BEING HEARD IN COUNTY COURT

Sealed Verdict Returned in Case of Edward Konrad—Jury Selected to Hear Evidence Against John Konrad.

The prosecution of the case of Edward Konrad, alias "Sailor" Konrad, was resumed in the circuit court Tuesday by State's Attorney W. N. Hairgrove and W. W. Wright, special State's attorney, who was assisting the late Robert Tilton in the case. The examination of the witnesses was concluded and then Mr. Wright made the argument before the jury. This was his first appearance before a jury in a case of the kind and he made an excellent impression. Then the closing argument was made by State's Attorney Hairgrove, who mentioned that he had been a practicing attorney for twenty-five years but always engaged on the side of the defense. He summed up the case in a very forceful way and his occasional sallies of wit proved very interesting to the court room audience. The case was given to the jury at noon.

The members of the jury were: William Duhann, H. H. Schumaker, Spencer Carpenter, Thomas Flynn, Charles Magill, S. A. Gunn, Charles Black, Clyde D. Black, John E. Boland, Owen Winingham, Jesse Henry and George L. Lockhart. A sealed verdict was returned in the evening and will be opened in court this morning.

The entire afternoon was occupied in securing a jury for the trial of John, alias "Wabash" Konrad, who is charged with selling liquor in anti-saloon territory. The defendant's attorneys are Kirby, Wilson & Brookhouse, and Mr. Wright is assisting State's Attorney Hairgrove. The jury was secured just before Judge Thomson adjourned the court until 9 o'clock this morning and includes P. W. Heaton, Dwight Kestrup, Marshall Nunes, J. A. Manes, George Harris, Jacob Hosp, Charles Fiklin, Edward DeLaurenfeld, William Kepler, H. W. Sheppard, Louis Caldwell and Edward Jackson. The case against Earl Taylor, charged with liquor selling has been taken from the call.

A SENSIBLE SUGGESTION.
A sensible offer is made by J. Herman, a local merchant in another column. He offers to duplicate mail order houses' prices, quality for quality, with alterations not charged. It has been suggested by others that this would be a good way to circumvent so much business going to these mail order houses that do nothing for an upbuilding of the home place but use all their money elsewhere. They too, they get their money in advance. No matter how carefully a house merchant may be, he gives away credit at all and operates a set of books he is well high certain to lose more or less. He accommodates the local customer in many ways. If a grocer he gives the produce that will not be taken by the mail order house and in many ways shows favors not asked or received of the places at a distance. No doubt, in a great majority of cases, home merchants could and would meet the prices of these mail order houses, quality for quality, if they had the opportunity and if more of them would make an offer similar to that of Mr. Herman it would be wise. It is said by those who ought to know that the head of Sears, Roebuck & Co., is worth fifty to seventy five millions and is piling it up all the time from people who imagine they are getting great bargains.

CLEANUP WEEK BRINGING SOME GOOD RESULTS

Prizes Offered for Essays by Boys and Girls—Every Citizen Should Help in Good Work.

The weather has not been very favorable thus far for cleanup week but nevertheless there has been a lot of activity and a vast number of loads of rubbish have been hauled to the dumping ground. Today the various women appointed to make addresses in the schools will explain the purpose of the work and will also tell the children about the prizes offered for the best essays giving resume of work accomplished during the week. A grand prize of \$5 in cash was offered by the Woman's Civic league, with \$2 prizes for each ward. The contest is open to boys and girls and the essays which they write must summarize their own efforts in cleanup week.

They must be able to prove by witnesses other than their parent's what work they have done. The essays must be filed with the sanitary inspector in the ward in which the boy or girl lives.

As a result of the talks today it is believed that still greater activity will come during the remainder of the week, as parents are brought into closer knowledge of the general cleanup plans. It is sincerely hoped that when Saturday night comes there will not be a back yard decorated with a rubbish heap or a street or an alley which needs cleaning. A clean city will not only mean a beautiful city but a sanitary city, and the work of cleanup week is commendable from every standpoint. Are you doing your share in the good work?

ARGUED CASE BEFORE APPELLATE COURT.
Hugh P. Green of the firm of Worthington, Reeve & Green, was in Springfield Tuesday to make an oral argument before the appellate court in a matter relating to the estate of Sarah Baker, deceased. On petition of Edward Allen and James W. Ledford et al citation was issued in the county court here against James M. Baker, administrator of the estate of Sarah Baker compelling him to list in the assets certain property amounting to \$2,566.34. The administrator had maintained that this property was his own and did not belong to the estate, but by the finding of the county and circuit courts he was required to inventory this property and charge the same to himself. An appeal was taken, Worthington, Reeve and Green representing the administrator. The petitioners were represented by J. O. Priest and John M. Butler.

HORSE HAD HARD FALL.
A horse belonging to Capt. J. E. Wright had driven by him fell on the east side of the square Tuesday afternoon. The accident occurred in front of the Elliott State bank and probably was caused by the oil on the pavement. The horse was not injured but some of the harness was broken and bystanders who went to Capt. Wright's assistance were compelled to unhitch the animal before it could be gotten on its feet.

Mrs. T. E. Cockin was among visitors from Alexander in the city yesterday.

MRS. WILLIAM NUNES FUNERAL HELD THURSDAY AFTERNOON

Large company of Sorrowing Friends Gathered at Northminster church—Rev. W. E. Spoons Paid Tribute to Life of Deceased.

The funeral of Mrs. William Nunes was held at Northminster church Tuesday afternoon and the auditorium was filled with the sorrowing friends and relatives. Music was furnished by the choir consisting of Mrs. Jennie DeFroitas, Mrs. James A. Scott, Edward Nunes and John Day, with Mrs. Grace Ferreira at the organ. Rev. W. E. Spoons was in charge of the service and after the reading of appropriate scripture passages and an obituary notice, he took as his theme for a brief sermon, "She hath done what she could." Then the minister took the life of Dorcas, portrayed in the Bible, as paralleled in large degree by that of Mrs. Nunes. He paid high tribute to the life of one who is well worthy of any homage that we may pay. The words are true of her as they were of Dorcas. "She hath done what she could." Dorcas wrought with heart and hand and needle for those about her, but she could not have been more earnest, more painstaking, or more devoted in her work than was this woman. Dorcas, if we read rightly, was beautiful in form and face, and those who knew this woman in her earlier years, know well that description fits her. The purity of Dorcas' life was notable as was true of Mrs. Nunes but we are more concerned with character, for character, if it is really beautiful, grows brighter until the perfect day. And it was so with our friend who has gone.

Tributes From Many.
"As I was in that home of mourning I was impressed with those who came to pay their last tribute of respect and to look upon the face of the woman who had often aided and befriended them. One old man, poor in this world's goods and with small earning power, brought his little bouquet of flowers and the humble blossoms spoke volumes and were given the honored place upon the casket. As I stood in that home, the white and black passed before the casket evidently deeply moved, and more than one of them said to me, "A better woman never lived. She was a mother to us."

"Mrs. Nunes was not known in society, she did not appear abroad often, but her heart and hand were always open and she was a friend to the friendless. I would crave no greater encomium when I am gone than to have the reputation of having sought to help the helpless and befriended the friendless. So I say that this woman was one of the finest characters that Jacksonville has known. What is beauty? It's not mere shapeliness, it is the stainless soul within that outshines a perfect skin." This life was beautiful. She spent her years in loving service and devotion. She said to me in her final illness, "My life's labor is done, God has called me and I am ready to go." Dorcas died and so has Mrs. Nunes, but she will be immortal in our memories. We can rejoice today that her life has given us the hope of immortality and my prayer is that this family may all so live that later on there will come that glad reunion which the scriptures have promised."

Burial at East Cemetery.
After another hymn by the choir the long cortege moved to Jacksonville cemetery. There a brief service was held by Rev. Mr. Spoons and Mrs. Nunes was laid to rest in a grave made beautiful with flowers. There was a great profusion of floral emblems and these were cared for by Mrs. Joshua Vaseconellos, Mrs. Robert Gonzales, Mrs. Susan DeSilva and Mrs. John E. Pires. Among persons here for the funeral are Mrs. Lucile Lane of R. H. Hill, Mo., a daughter of the deceased and Mrs. Charles Sibert of Fruitport, Mich., a sister-in-law.
